

# BEST OF SVALBARD

## SPITSBERGEN & THE POLAR ICE EDGE

This remarkable expedition departs from the far northern settlement of Longyearbyen on the Norwegian Arctic island of Spitsbergen in the famed Svalbard archipelago. We explore the island's northwestern coast, home to dramatic mountain scenery, tidewater glaciers, and some of the Arctic's best wildlife viewing opportunities. On this voyage we also venture to the jumbled edge of the north-polar ice cap in search of polar bears stalking their prey. Here, at the dynamic boundary between implacable ice and bountiful sea, we have a rare opportunity to experience raw nature and incredible events hardly ever seen.

## HIGHLIGHTS

### ARCTIC WILDERNESS

The unique Arctic ecosystem of Spitsbergen is almost entirely protected in a network of nature reserves and national parks. Our voyage takes us to Nordre Isfjorden Nasjonalpark, Forlandet Nasjonalpark, and the spectacular Nordvest-Spitsbergen Nasjonalpark. Each has its own claim to Svalbard's magnificent natural history.

By land and sea, we encounter a wealth of wildlife—including walrus, Arctic fox, reindeer, and a variety of whales and seals—in one of the High Arctic's most pristine and protected environments. We also encounter a surprising wealth of hardy plant life and striking geology throughout the area.

### POLAR BEARS

Svalbard boasts one of the Arctic's highest concentrations of polar bears. They are the world's largest land carnivores and have become a symbol of the imperiled Arctic wilderness. This is one of the best places in the world to view polar bears hunting in their preferred habitat: the pack ice.

### HUMAN ENDEAVOR

Our area of exploration is rich with historical sites including early whaling camps, trappers' cabins, deserted coal mining operations, and an abandoned polar research station. It also contains the staging areas for

many historic expeditions to the North Pole, including those of Roald Amundsen and Walter Wellman.

Modern human endeavor in this area can be experienced at Ny Ålesund, a former mining town that is now home to a multinational community of Arctic researchers. In addition to a museum, gift shop, and post office, visitors to this extreme northern settlement find a famous bust of Amundsen and a historic airship mast.

## ITINERARY

### Day 1: Longyearbyen, Svalbard

Welcome to Longyearbyen, the administrative capital of the Norwegian territory of Svalbard and starting point of our expedition. After arriving via scheduled commercial flight service, you are free to explore this fascinating Arctic settlement. Be sure to see the excellent Svalbard Museum and take advantage of quality shopping and dining opportunities in the town center. Your hotel for the night has been arranged by us and is included in the price of the voyage.

In the afternoon we welcome you aboard the luxury expedition ship M/V Sea Spirit. Explore the ship and get comfortable in your home away from home for the extraordinary adventure to come. Savor the anticipation of your Arctic dreams coming true as we slip our moorings and sail into a true wilderness where wildlife abounds. The scenery as we sail through Isfjorden on our first evening is spectacular and there is already the possibility of marine mammal encounters.

## Day 3-10: Exploration of West Spitsbergen

The goal for this voyage is a circumnavigation of Spitsbergen, the largest island of the Svalbard archipelago. Along the way, we hope to experience the many facets of this incredible High Arctic territory. Our exact schedule and route will be shaped by weather and ice. We also expect there will be enough sea ice around to support ice-dependent animals such as polar bears and walrus.

During this voyage, we expect to encounter significant sea ice concentrations in the enormous Northwest Svalbard Nature Reserve. In this remote and isolated region, ice can persist very late into the summer, giving it a truly polar character. This reserve covers the rugged northwestern parts of Spitsbergen and the entirety of Nordaustlandet, the second largest island in Svalbard. Here we find the massive Austfonna ice cap, part of which meets the sea along the 45-kilometer ice cliff known as Bråsvellbreen—one of the great wonders of the Arctic world. The polar desert environment supports little in the way of vegetation but hosts prodigious numbers of seabirds at breeding sites such as the spectacular sea cliffs of Alkefjellet. The probability of encountering polar bears and walrus in this icy wilderness is very high.

Also on our route is Northwest Spitsbergen National Park, the crown jewel of Svalbard's scenic wonders. Here we find deep fjords flanked by serrated mountain peaks and immense tidewater glaciers calving icebergs into turquoise waters. The whole area is alive with migratory Arctic seabirds. On this voyage, we are just in time to witness the return of millions of murres, guillemots and little auks to the small islands, mountainsides and sea cliffs where they breed within the park. This is also a great area to encounter marine mammals, including various kinds of whales and Arctic seals. Set among this incredible scenery and wildlife activity, we also find evidence of Svalbard's earliest sealers and whalers.

Human habitation along our route can be found at Ny Ålesund, a former mining town and airship base that is now home to an international community of Arctic researchers. This is one of the world's most northerly settlements where we find a gift shop and a post office. We also visit a famous airship mast that was a starting point of the North Pole expeditions by Umberto Nobile and Roald Amundsen. This place played an important part in the history of polar exploration.

The ambitious Svalbard and Polar Ice Edge route offers a comprehensive view of the Arctic's many faces. Every day offers something new and exciting. We will not miss a single opportunity to encounter amazing Arctic wildlife, to witness incredible polar scenery, and to walk in the footsteps of historic expeditions that came before.

## Day 11: Disembarkation in Longyearbyen, Svalbard

After breakfast we say farewell in the town of Longyearbyen, where we started. We provide a transfer to the airport or to the town center if you wish to spend more time here. As you look back on your wonderful experience in Svalbard, you may already be looking forward to your next incredible adventure to the ice!
